

Worm Composting Workshop

Looking for a fun and interactive way to get your students interested about the environment?
Worms in the classroom offer a tremendous learning opportunity!

Vermicomposting is indoor composting with Red Wiggler worms.
Learn how worms are going to play an ever-increasing role in waste management
and soil production. Join the Green Revolution - get worms!

Hands-on, inspirational workshop about the wonder of worms. Students and teachers will:

- Learn how to setup and maintain a worm bin
- Explore the basics of worm biology
- Discuss current environmental issue

Workshop
only \$195

Benefits of worm composting:

- Reduces garbage going to landfill
- Teaches environmental responsibility
- Soil Production - Add life back to your soil
- Fundraising opportunity
